DEPUTY COMMISSIONER

Copy of Circular No 708-28 dated 6th Aug 1945

You are already aware that this Institute started by the Government from 1st Aug 43 has been training skilled personnel required from the various large industries in the State and to equip our young men with the requisite knowledge to be able to start small industrial units of their own

The Institute has begun its third year of working since July 1945 and the total number of students now undergoing training comes to about 500 belonging to all parts of the State

The main object with which the Institute was started being the industrial consideration of the State as a whole it was expected that all the Local Bodies such as District Boards and Municipalities would come to its aid in fulfilment of its object by generous contributions in the shape of scholarships to such of the students who have come from their respective jurisdictions. It is satisfying to note that some of the District Boards and a few of the municipalities have already come forward with their contributions

I request that the local bodies may kindly be persuaded to grant suitable scholarships to the students who may apply for such help from the Institute. Their applications will be forwarded for your consideration in due course
